

## CATS LYNN WILL TAKE: HARRIET, SOPHIE, BOOTSY, RAISIN.

LYNN CROSS AT LITTLEBROOK FARM: 518 794-8104, 518 821-5506,  
lynnlittlebrookfarm@yahoo.com

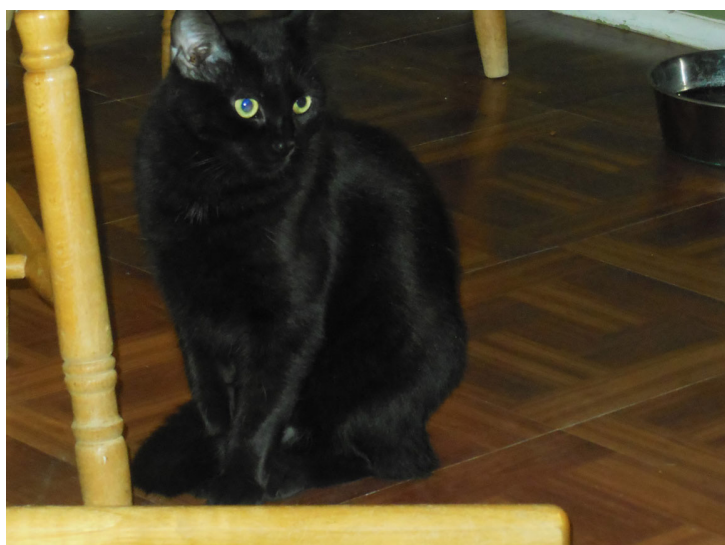

### SOPHIE AND HARRIET, PAIR, SISTERS - (NET OR TRAP).

Age 6, **SOPHIE AND HARRIET** are sisters and **ABSOLUTELY MUST STAY TOGETHER**. They were born out on the Garfield streets and were trapped in the fall of 2014 as 5 month-old kittens. Although they have matured into very docile, well-behaved, social cats, they have not known any humans besides Vin and would require adequate patience, allowing time for them to trust their new parents. They are large, chubby and long-haired; black with white accents. Both have very distinct markings: Sophie is more black with a black spot on her chin and nose, while Harriet is more white, with a pronounced mane and a "chocolate-chip" shaped mark on her nose. Known collectively as "The Harries" (in honor of their departed patriarch, Harry), their personalities and temperament are identical, and are fairly manageable. They allow being picked-up and petted but never have sat in a lap. They are very comfortable and confident, and could go to a home with other cats. An experienced patient cat parent is recommended, especially one with knowledge of rehabilitated ferals. The Harries are cousins of the Cubs...

## **BOOTSY AND RAISIN, PAIR, BROTHERS - (NET OR TRAP).**

Age 18 MONTHS, **BOOTSY AND RAISIN** are brothers and **ABSOLUTELY MUST STAY TOGETHER**. Known collectively as "The Cubs", they were born out on the Garfield streets, and were trapped in the winter of 2019 as 2 month-old kittens. Like their cousins Sophie and Harriet, they are very docile, well-behaved, social cats. However they too have never known any humans besides Vin and they would require patience, but in time would also come to trust their new parents. They are both black and short-haired, with Bootsy being larger with white accents; specifically his distinct white "boots" (hence his name). They are for the most part manageable: Bootsy is handable, but only as far as picking him up, and he won't sit in a lap (yet). He is very curious and vocal, and has definite alpha-male traits. He does however love to chew cardboard. Raisin has never been picked up and is very timid and cautious, bordering on skittish. Although he is curious and likes to be petted, he allows it on his terms. This will eventually get better as he has made tremendous progress in the short time he has been tame. They are very brotherly and play together- even wrestle. Raisin shows much affectionate towards the other cats, and is everyone's baby. The cubs could easily go to a home with other cats, but as with Sophie and Harriet, an experienced, patient cat parent is recommended, especially one with knowledge of rehabilitated ferals.

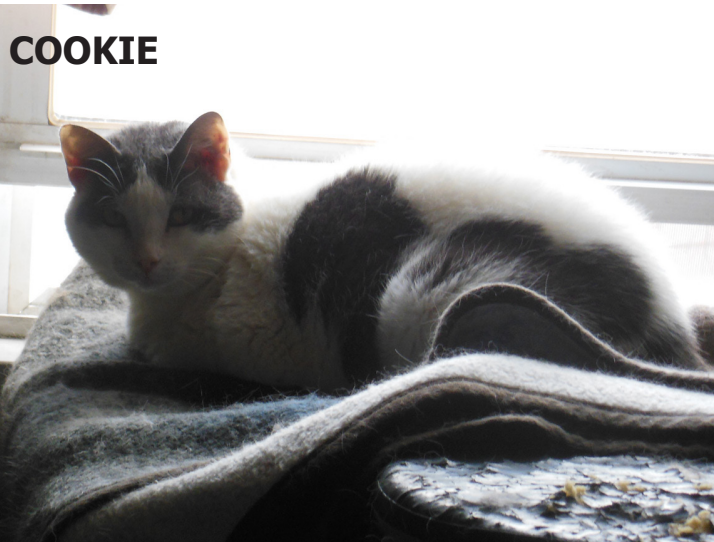

## **CATS NEEDING HOMES OR SANCTUARIES/RESCUES: CLEO, BERT, COOKIE & BABY-BOO, SQUEAKY, FIONA, ALLYBEAR.**

### **COOKIE & BABY-BOO, PAIR, MOTHER/DAUGHTER - (BABYBOO MAY NEED NET).**

**COOKIE**, age 8 and **BABY-BOO** age 6, are a mother and daughter pair that **ABSOLUTELY MUST STAY TOGETHER**. It is advised that they go to a home with gentle cats, as Baby-Boo is sensitive to bullies and aggressive cats. Although she is **EXTREMELY** timid, she has made great progress and in time will open up to her new parents. She is a bit skittish and extremely attached to her mother, Cookie, and stays with her most of the time. Cookie is missing most of her teeth, and is a bit aloof, but is very affectionate. She can be handled with relative ease, but Baby-Boo would require experienced handling. Although they are good, tame cats, a cat parent with experience and patience is recommended for this pair. Both are medium-sized, with short white hair. Cookie, the mother, is chubby with grey patches and a distinct "heart" shaped mark on her right side. She has had most of her teeth removed but can still eat dry food. Baby-Boo, the daughter, is lean and sleek, with black patches and a cheetah-like build. She only likes dry and very rarely eats wet food. **THEY MUST REMAIN INDOOR CATS!**

**\*BE CERTAIN YOU DON'T CONFUSE CLEO WITH BABY-BOO OR COOKIE, AS THEY ALL LOOK SIMILAR! CLEO IS SMALLEST AND HAS THE LONG EARS, COOKIE IS CHUBBY, HAS GREY SPOTS AND LOOKS STONED, AND BABY BOO IS LONG AND ATHLETIC.\***

## **ALLYBEAR - (MAY NEED PRO AND/OR NET)**

Age 6(?) Allybear was found outside in 2015, and it's uncertain whether she was born on the streets or lost/abandoned. She is very sweet, handleable and loves the lap. She can bit testy when handled, but will comply most of the time. She gets along with all the cats, and loves attention. She is however, quite obese, and has been this way since being spayed. As a result she can't clean herself thoroughly, and her butt needs to be wiped periodically. For that reason alone, an experienced cat-caregiver willing to do this is the best candidate for her adoption. She is medium-sized with short grey hair. **SHE MUST REMAIN AN INDOOR CAT!**

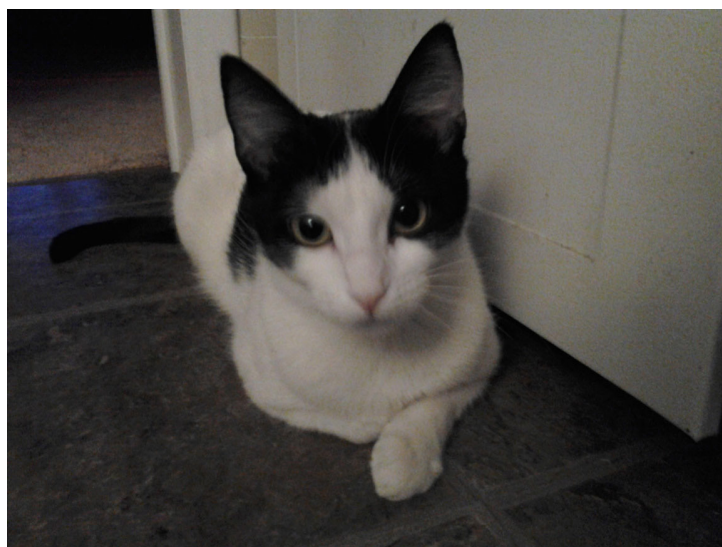

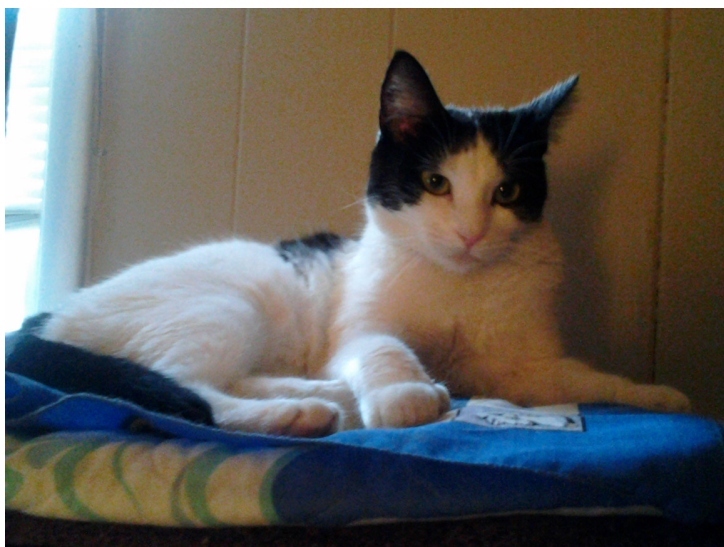

## **FIONA - (CAN BE PICKED UP AND PUT IN CARRIER)**

Age unknown, Fiona was found wandering the Garfield streets. She was definitely not feral, as she walked right into a carrier and went to sleep! She is extremely outgoing, curious and affectionate. She is handleable but has never sat in a lap. She does have sensitive digestion, and is on "Catlax" for constipation and hairballs. She has never eaten wet food, and gets a grain-free dry, such as "Taste of the Wild". Fiona is large, with long brown and black hair. She gets along with the other cats, but tends to be independent like Cleo, and would do fine as an only pet and/or first cat. Aside from her digestive issues and dietary needs, is very easy. **SHE MUST REMAIN AN INDOOR CAT!**

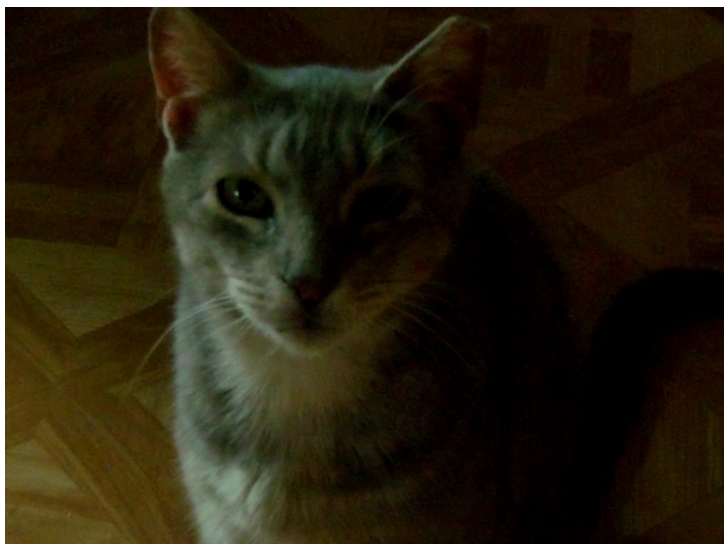

## **CLEO - (CAN BE PICKED UP AND PUT IN CARRIER)**

Age 9, Cleo was adopted from the Clifton shelter in 2012. She is docile and handlable, extremely affectionate and will sit in a lap. She gets along with other cats, but tends to be partial to males. She is also quite happy by herself and would do fine as an only cat. She love to climb to high spots and will sit on your shoulder! Cleo is small, has short white hair with black patches, and long ears. A very easy cat, and would be good for someone with little or no experience, as she was Vin's first cat. **SHE MUST REMAIN AN INDOOR CAT!** \*BE CERTAIN YOU DON'T CONFUSE CLEO WITH BABY-BOO OR COOKIE, AS THEY ALL LOOK SIMILAR! CLEO IS SMALLEST AND HAS THE LONG EARS, COOKIE HAS GREY SPOTS AND LOOKS STONED, AND BABY BOO IS LONG AND ATHLETIC.

## **BERT - (CAN BE PICKED UP AND PUT IN CARRIER)**

Age unknown, Bert was rescued from the Bronx in 2016, and it's uncertain whether he was born on the streets or lost/abandoned. He is very docile and handlable, extremely affectionate, loves attention and may sit on a lap. He gets along with all the cats, but is missing some teeth. Despite this he eats dry food and likes wet. He has a hoarse whispery "meow", but despite this is quite vocal; he "talks". Bert is small with short grey hair. **HE MUST REMAIN AN INDOOR CAT!**

## **SQUEAKY - (CAN BE PICKED UP AND PUT IN CARRIER)**

Age 16, Squeaky was adopted in 2015 from Chance at Life Rescue. A senior cat, he is docile and manageable, but on rare occasions can be a bit cranky with the others. He is extremely affectionate and loves to sleep by your head and sit in your lap. He has a very expressive "meow" and seems to be saying things. Since he is so old, he acts a bit strangely, but in completely benign ways (he bats at the water and eats with his paws, likes to dine in odd places). He gets along great with other cats, but really just sleeps most of the time. He too has sensitive digestion, and has been on probiotics, (Fortiflora or Advita), and gets grain-free food. Squeaky is small and a bit frail, with short brownish-gold hair, accented with thin black stripes. Due to his age, delicate constitution, probable deafness and quirky nature, an experienced, insightful cat parent/caregiver would suit him best. **HE MUST REMAIN AN INDOOR CAT!**

**\*\*\*END OF CAT BIOS\*\*\***

**ASIDE FROM THE FOUR GOING TO LITTLEBROOK FARM, THEY ALL MUST REMAIN INDOOR CATS.** REMEMBER THAT NONE OF THEM KNOW YOU OR ANYONE ELSE, AND WILL BE HIDING. ONLY A FEW CAN BE PICKED UP AND PUT IN A CARRIER, THEY ARE: CLEO, BERT, COOKIE, FIONA, AND SQUEAKY. BABY-BOO AND ALLYBEAR MAY LET YOU, BUT THE HARRIES & THE CUBS *MAY NEED TO BE NETTED, TRAPPED OR CAUGHT BY A "PRO"...*IT'S HARDER THAN IT SEEMS, SO DON'T TRY IT YOURSELF AND GET BITTEN! IF YOU'RE LUCKY, WHEN IT'S TIME TO MOVE THEM THEY WILL BE ASLEEP *IN A CARRIER!* TAKE ADVANTAGE OF THAT IF YOU CAN.

YOU'LL NO DOUBT NEED ASSISTANCE GETTING CATS INTO CARRIERS. THIS IS THE ORGANIZATION THAT RENEE WAS AFFILIATED WITH. THEY HAVE OR KNOW PEOPLE THAT ARE ADEPT AT WRANGLING CATS. TELL THEM YOU WILL PAY WHATEVER THEY REQUIRE. IF THEY DECLINE, DEFINITELY FIND SKILLED HANDERS. **CHANCE AT LIFE RESCUE:** [chanceatliferescue@gmail.com](mailto:chanceatliferescue@gmail.com) • 201-982-2219

THERE ARE CARRIERS ON SITE, BUT DOUBLE CHECK THEIR FUNCTION, AND BUY NEW IF YOU NEED TO. THERE IS ALSO A TRAP WITH 2 HOLDING CAGES THAT CAN BE USED FOR TRANSPORT. THE WRANGLERS WILL RECOGNIZE THEM AND KNOW HOW TO USE THEM.

***NO MATTER WHO YOU GET TO ASSIST, ALWAYS KEEP THE DOOR CLOSED!***
